</table>

**Solvency and Coverage**

- Net Worth: The total net worth of the farm, which includes both tangible and intangible assets, minus any liabilities.
- Debt/Equity: The ratio of total debt to total equity, indicating the farm's financial leverage.
- Operating Expense Ratio: The ratio of operating expenses to net farm income, showing the efficiency of the farm's operations.
- Depreciation Expense: The annual depreciation expense, indicating the wear and tear on the farm's assets.

**Profitability**

- Return on Farm Equity: The ratio of net farm income to total equity, indicating the farm's profitability.
- Current plus Intermediate: The sum of current and intermediate assets, indicating the farm's liquidity.

**Liquidity**

- Current: The ratio of current assets to current liabilities, indicating the farm's ability to meet its short-term obligations.
- Current plus Intermediate: The ratio of total current assets to total liabilities, indicating the farm's overall liquidity.

**Financial Efficiency**

- Asset Turnover: The ratio of net farm income to average total assets, indicating the efficiency of the farm's asset use.
- Interest Expense: The annual interest expense, indicating the cost of borrowing.

**Absolute Measures**

- ABSOLUTE MEASURES: The absolute measures provide a comprehensive view of the farm's financial health over the entire study period.
